30 April 2020

Dear Valued Stakeholder

On 23 April 2020, President Cyril Ramaphosa announced that the national coronavirus alert level will be lowered from Level 5 (nation-wide lockdown) to Level 4, which means that some activity will be allowed to resume with effect from Friday, 1 May 2020 subject to extreme precautions to limit community transmission and outbreaks.

However, businesses will only be permitted to resume operations if it is done in a phased manner, first preparing the workplace for a return to operations, followed by the return of the workforce in batches of no more than one-third. In some cases, a sector will not be able to return to full production during Level 4 while the risk of infection remains high.

In view of the above, NERSA’s status quo of working remotely from home will be retained during Level 4. We will keep you informed of any further developments.

To reach us during this period, please send an email to COVID-19Lockdown@nersa.org.za.

Yours sincerely
